

## **SOLICITATION ANNOUNCEMENT**

### **Strategic Growth Council**

### **Proposition 84 - Urban Greening Grant Program – THIRD AND FINAL ROUND**

#### **Urban Greening Project Grants**

We are now accepting project concept proposals for the third and final round of Urban Greening project grants. Solicitation for urban greening planning grants will be announced in Summer 2013.

All concept proposals for Urban Greening projects must be completed electronically. The link to the online concept wizard can be found at:

<http://grants.resources.ca.gov/urbgreen2013/default.aspx>

Important tips for completing the online process are available on the wizard site. The process must be completed and your concept proposal submitted no later than 11:59 p.m., Friday, April 5, 2013. If you have difficulty completing the online process, please call us at (916) 653-2812 for assistance.

Once you have submitted electronically, you are done with this process and do not need to submit hardcopies.

Concept Proposals will be reviewed for eligibility and then evaluated, with the highest ranking proposals receiving an invitation to submit a full application.

Once reviews are completed, all entities will be notified if their proposal is selected to further compete. Entities invited to further compete and submit a full application will be given applicable deadlines and further information at that time.

Eligibility and program requirements can be found at:
